Priority Justification and State Comments Regarding:

X PA SI Follow-up SI RPS HRS

Luria Brothers processed waste solids from the steel industry. They are listed as a (TSD) under RCRA. The company notified EPA in May 1981 and was granted interim status. The property was abandoned in late 1981. Currently the owners are working with state RCRA personnel in developing a closure plan for the site.

Since the facility is currently being addressed by RCRA corrective action, the state is recommending no further action by U.S. EPA pending any future problems at the site.
